

SOLARIN OYINDAMOLA

FRONTEND DEVELOPER

INTRODUCTION

I'm a front-end developer with experience in building responsive and visually appealing web applications. I work with technologies like React, and Angular to create smooth user experiences, focusing on clean design and efficient performance.

EXPERIENCE

FRONT-END DEVELOPER INTERN

Polaris Bank | (SIWES Internship – 6 months)

Worked with React to develop and maintain front-end components.

Gained experience in building responsive and user-friendly interfaces.

Improved skills in version control using Git and GitHub.

FRONT-END DEVELOPER INTERN

HNG Internship | (Stage 1 - 4, 2025)

Participated in a fast-paced internship program focused on front-end development.

Worked on real-world projects, improving problem-solving and coding efficiency.

Advanced through multiple stages, gaining hands-on experience with React and Figma.

INTERN

NIIT | (3-month internship)

Learned Python, HTML, CSS, and JavaScript.

Developed foundational programming and web development skills.

Built small projects to reinforce learning.
